EL56/70 EMULSION SEALER CLEAR

Features:

A water based sealer and stabiliser designed for application to interior and exterior brickwork, masonry and asbestos. May be used as a clear glaze for matt surfaces to achieve a satin finish.

Availability:

5, 2.5 and 1 Litre containers.

Volume Solids:

24% ± 3% (BS 3900 Part A10).

Preparation:

The surface should be thoroughly clean, and free from dust, and grease. May be applied to damp surfaces.

Application:

Brush or roller. To aid penetration on porous surfaces, it is recommended that the first coat is thinned up to 20% by volume with clean water.

Coverage:

Approximately 50 sq metres per 5 Litres depending on porosity of substrate.

Drying:

Touch dry: 30 minutes @ 20°C.

Hard dry & recoatable: 2 hours @ 20°C.

Thorough drying is indicated by the original opaque appearance becoming clear.

The foregoing information is given in good faith, based upon tests and experience. It should be noted that recommendations are made without guarantee, as the use of this product is beyond our control.
See Standard Conditions of Sale.

Before using any product, please read the appropriate Material Safety Data Sheet and carry out a full risk assessment for the intended use and method of application.
